

Lanham Announces an EDI Webinar Series for November and December 2011

Lanham EDI - Continued Advancement for EDI Your Way

Lanham Associates provides the only EDI solution today in NAV that can support EDI *Your Way*, the way that specifically suits your company best at the lowest cost. With Lanham you have the options of:

1. Cloud-based -- Subscription Model EDI
2. Hassle-Free -- Lanham or your Dynamics reseller supports your EDI
3. In-House -- Complete local control of your EDI

Join us to learn how we can all have continued success with Lanham EDI:

1. Understand how Lanham EDI stacks up against other solutions, and why it provides more flexibility at a better price than any other solution for NAV users.
2. See and learn about new features...
 - Fully automated 3PL support
 - EDI Alerts
 - Sales/Purchasing Comment line support
 - Outbound reverse general cross reference
 - And much more

Why Work with Lanham Associates for your NAV EDI?

- Over 750 End User Companies Worldwide use Lanham EDI.
- Lanham provides 52 EDI documents (inbound and outbound) natively inside NAV so they can be used automatically by your ERP system - more than any other EDI solution.
- No web-forms requiring manual data entry are required.
- The only NAV EDI solution that fully automates ASN's without extra effort or data entry
- The only CfMD (Certified for Microsoft Dynamics) NAV EDI solution on the market today

Learn more about the Lanham VAN to lower your costs:

- Competitively priced Lanham EDI VAN and AS2 Direct Connects to drive the lowest cost of ownership for NAV
- Lanham will not lock you into XML (trade partners want X12) and raise your VAN fees.
- Quick and easy to get a quote or switch over to the Lanham VAN

Lanham lets You choose:

Lower Cost of Ownership, Lower Cost Entry Point, or Both

There is a good reason why more than 44,000 NAV users worldwide depend on Lanham EDI for their daily productivity. Join us for one of the following webinars to find out more:
