

Automotive ACE

Automotive ACE

Automotive Original Equipment Manufacturers (OEMs) operate in a "Just in Time" marketplace. It is essential for their suppliers to respond quickly and accurately to the constantly changing automotive assembly line schedules.

Automotive ACE is a system designed to meet the specific needs of automotive suppliers.

Key Automotive Compliance Benefits

- All modules and functions embedded into a single full ERP system, providing "Total Access to Data."
- Allows the supplier to meet stringent scheduling and e-commerce requirements of manufacturers.
- EDI mapping and translation tool maps EDI elements directly to and from the database fields in NAV.
- EDI maps are available via mapping services for major trading partners.
- Pack Line Scanning and Standard Pack features capture package level detail for the automatic Advanced Shipment Notice (ASN) generation.
- Shipping Manifest System for LTL carriers.
- Bill of Lading for planning and executing shipments.
- Label Formatter for compliance labels and custom formatting, including 2D bar codes and RFID.
- Forecasting functionality streamlines business processes, and delivers superior visibility to real time information.

Built Inside Microsoft® Dynamics™ NAV

Automotive ACE, built inside Dynamics NAV, takes a unique approach of incorporating all key compliance functions inside a single system, providing "Total Access to Data." From the incoming Forecast and Release, to shipment, Advanced Shipment Notice (ASN), and invoice, the user has a common user interface and drill down access to all the details that make up the day-to-day operation.

EDI Standards

Automotive ACE's EDI can accommodate X12 and EDIFACT, as well as EDI business transactions unique to the requirements of the Automotive Industry. Automotive ACE supports all of these, and can combine them, when necessary, into a single transmission.

ACE  Advanced Commerce ERP

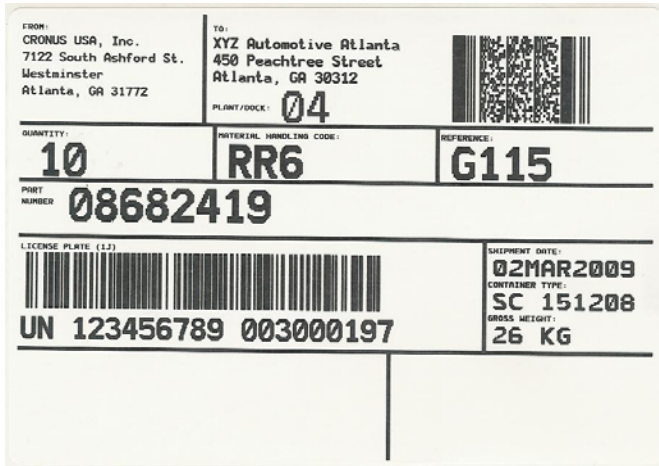

Forecast & Release Management

Suppliers to the Automotive Industry highly value ACE as it supports the full forecast and release cycle:

- Receipt of incoming Forecast (830-DELFOR)
- Creation or updating of NAV Blanket Order
- Receipt of Release (862-DELJIT) against a Forecast
- Creation of Sales Order for new release lines
- Pack and Print Compliance Labels for Shipping
- Creation of Bill of Lading
- Sending of Advanced Shipment Notice (856-DESADV)
- Sending of Invoice (810-INVOIC)

2D Barcode Label

Label Formatter for 2D Barcode labels, UCC compliant labels and custom formatting.

Robust Solution

ACE automates and streamlines your business processes. It provides you with specialized solutions from your financials and ERP, through forecasting, EDI and shipping compliance, and inventory and warehouse management. ACE delivers unprecedented visibility to real-time information, enabling suppliers to accurately fulfill the OEM's dynamic material demands.

About the Developer

Lanham Associates began its relationship with Navision Software in 1997 by creating the product's first distribution functionality, Advanced Distribution. A Gold-Certified Microsoft Dynamics ISV (Independent Software Vendor), Lanham Associates has been creating complementary supply chain planning and execution products inside Dynamics NAV ever since.

Current products include ACE – Advanced Commerce ERP for Automotive, CPG, Electronics, & Sporting Goods; EDI; E-Ship; E-Receive; AFP - Advanced Forecasting and Procurement; ADCS Warehousing; Outbound Warehouse Request; and History & Security Management.

Lanham also provides Absolute Value, a world class, formula-based forecasting and multi-site replenishment solution for distributors, allowing them to increase profits while concurrently improving customer satisfaction with unprecedented visibility. The product is available in a SaaS or on-premise format, and can be used with any Microsoft® Dynamics™ or independent ERP system.

Lanham Associates maintains high standards for product excellence, and has been the recipient of both the President's Club and Inner Circle Awards many times since being affiliated with Microsoft.
