## Course Overview

The ACE Warehousing Class is a four day, hands-on class, utilizing the most recent versions of NAV and Lanham software. This class is intended for resellers who are interested in learning how to install, configure and implement Lanham's ACE Warehousing solution.

Successful completion of this class is measured through a certification exam pertaining to the Lanham ACE Warehousing application.

## Agenda

### Day 1 – Install and Setup ACE Warehousing

- Introduction to ACE Warehousing and module overview
- Installing and configuring ADCS
- Running the RF Toolbox
- Installing ACE Warehousing with E-Ship/E-Receive
- Setting up warehouse employees
- RF configuration options

- Miniforms and Miniform Codeunits
- Development and debugging
- Setting up Label Printing for the warehouse
- Accessing NAV through the handheld

### Day 2 – Standard Warehouse Processes

- Receiving and Put-away
- Movements, Replenishment, Physical Inventory
- Bin Capacity
